### About InclusivePV

InclusivePV is a solar PV installer and consultancy firm aimed at providing access to renewable energy into small township based businesses such as SPAZA shops, Social Clubs, Hair Salons and Supermarkets etc. With the Western Cape moving towards its own power generation, it is clear that renewable energy is the future for South Africa. The increasing electricity tariffs put a strain in small businesses which results in less and less profits being made. InclusivePV closes this gap and approaches the future of electricity in South Africa, particularly in small township businesses and hence aims at improving the township economy.
